

REDUCE, REUSE, RE-PLAY!

-Grade Level: **Kindergarten**

-Project Title: **Reduce, Reuse, Re-play!**

-Driving Question: *How can we use recycled materials to learn how to bowl?*

-Content Standards:

Manipulative Skills 2.6 : Explain the role of the eyes when striking objects

Group Dynamics 5.5: Participate as a leader and a follower during physical activities.

Students will collaborate in a group to create a bowling set using recycled water bottles and filling materials. Students will use teamwork, problem solving skills, and writing skills to open a pretend but functioning “bowling alley”!

-Major Products: Create a bowling set using recycled water bottles.

-Making It Public: Open a “pretend” but functional bowling alley for another grade level class to attend!
