

1ST GRADE: GIVE BACK GARDENS

Driving Question: How can we use our knowledge of plant life cycles to create a usable garden?

Content:

LS1.A: Structure and Function: All organisms have external parts.

LS1.B: Growth and Development of Organisms: Adult plants and animals can have young.

LS1.D: Information Processing: Plants and animals have body parts that capture and convey different kinds of information needed for growth and survival.

LS3.A: Inheritance of Traits: Young animals and plants are very much, but not exactly, like their parents.

LS3.B: Variation of Traits: Individuals of the same kind of plant or animal are recognizable as similar but can also vary in many ways.

Major Products: Students will collaboratively create a school garden and learn about organic farming. Students will also create their own page in a class made book.

Public Presentation: Students will hold a book signing party with parents in order to share their book and gardens they created.
