

# **3rd Grade Amazing Race Project**

## **Driving Question**

How can we, as anthropologists, design Amazing Race challenges that teach our community about California Indians' culture of tribes in our region?

## **Content**

This project will cover a variety of 3rd grade standards: social studies standards as the students learn about the California Indians (HSS 3.2), persuasive writing (W 3.1, 3.10) and speaking and listening skills (SL 3.1-3.5).

## **Major Products**

Each group will create a presentation displaying their knowledge of their tribe. They will also design an Amazing Race challenge that exhibits their knowledge of their tribe's culture, beliefs, customs, etc.

## **Public Presentation**

The groups will present their presentations to the class and Amazing Race producers. They will also share their challenges with their classmates.
